

CONTENTS.

I.—REPORT OF THE COMMISSIONER.

A.—GENERAL CONSIDERATIONS.

	Page.
1. INTRODUCTORY REMARKS.....	xix
Divisions of the subject.....	xix
Inquiry.....	xix
Propagation.....	xix
Expansion of the work.....	xix
Co-operation of State commissioners.....	xix
The promotion of science.....	xx
Noteworthy features of the year.....	xx
(1) Occupancy of buildings at Wood's Holl.....	xx
(2) Trip of the Albatross to the Gulf of Mexico.....	xx
(3) Construction of plans for the Grampus.....	xx
(4) Participation in the New Orleans Exhibition.....	xx
(5) Census of the Great Lakes fisheries.....	xx
(6) Statistics of the sea fisheries.....	xx
(7) Investigation of oyster-beds of Long Island Sound.....	xxi
(8) Importation of soles and eggs of Loch Leven trout.....	xxi
(9) Hatching of cod, grayling, and shad.....	xxi
(10) Building a shad hatchery at Fort Washington.....	xxi
(11) Discovery of a system of oyster-culture.....	xxi
(12) Transportation of clams from Puget Sound.....	xxi
(13) Confinement of shad in a pond.....	xxi
(14) Distribution of carp to public and private waters.....	xxi
(15) Increased results in propagating trout, salmon, shad, &c.....	xxi
(16) Exportation of catfish and whitefish eggs to Europe and Australia.....	xxi
(17) The introduction into notice of smoked kingfish.....	xxi
(18) The Iceland halibut fishery.....	xxi
(19) Meeting of the American Fisheries Society.....	xxi
(20) Publication of the quarto report.....	xxi
Extent of the work of the Commission during the year.....	xxi
Casualties during the year.....	xxi
2. STATIONS OF THE U. S. FISH COMMISSION.....	xxii
A.—For investigation and research.....	xxii
(1) Gloucester, Mass.....	xxii
(2) Wood's Holl, Mass.....	xxii
(3) Saint Jerome, Md.....	xxii
B.—For propagation of Salmonidæ.....	xxii
(4) Grand Lake Stream, Me. (Schoodic salmon).....	xxii
(5) Bucksport, Me. (Penobscot salmon).....	xxiii
(6) Northville, Mich. (whitefish and several species of trout).....	xxiii
(7) Alpena, Mich. (whitefish).....	xxiii
(8) Baird, Shasta County, Cal. (California salmon).....	xxiii
(9) Trout ponds near Baird, Cal. (California trout).....	xxiii
(10) Wytheville, Va. (Salmonidæ generally).....	xxiii
(11) Cold Spring Harbor, N. Y. (Schoodic and Penobscot salmon).....	xxiii
C.—For propagation of Shad.....	xxiv
(12) Havre de Grace, Md.....	xxiv
(13) Central Station, Washington, D. C.....	xxiv

	Page.
2. PRINCIPAL STATIONS OF THE U. S. FISH COMMISSION—Continued.	
C.—For propagation of Shad—Continued.	
(14) Fort Washington, Md.	xxiv
(15) Gloucester City, N. J.	xxiv
(16) Lambertville, N. J.	xxiv
D.—For propagation of Carp.	xxiv
(17) Monument reservation, Washington, D. C.	xxiv
(18) Arsenal grounds, Washington, D. C.	xxv
3. NEW HATCHING STATION PROPOSED	xxv
In Colorado.	xxv
4. VESSELS OF THE COMMISSION	xxvi
A.—The steamer Albatross.	xxvi
Movements of this vessel in 1885.	xxvi
Exhibited at the New Orleans Exposition.	xxvii
B.—The steamer Fish Hawk.	xxvii
Movements during 1885.	xxviii
Shad work in New Jersey.	xxviii
C.—The steamer Lookout.	xxix
Its command and work in 1885.	xxix
Trip to the Gulf of Mexico.	xxix
D.—The schooner Grampus.	xxix
Appropriation for building.	xxix
Improvements in model.	xxx
Bids for construction.	xxxi
Details.	xxxi
E.—Other vessels.	xxxi
List of cutters, gigs, and launches.	xxxii
F.—Assignments of naval officers.	xxxiii
Services of Passed Assistant Engineer W. L. Ballie, U. S. N.	xxxiii
5. FISH TRANSPORTING AND HATCHING CARS	xxxiii
List of cars and their uses.	xxxiii
6. COURTESIES EXTENDED TO THE U. S. FISH COMMISSION	xxxiv
A.—By the Government	xxxiv
The Treasury Department	xxxiv
Secretary's Office.	xxxiv
Light-House Board.	xxxiv
Coast Survey.	xxxiv
Life-Saving Service.	xxxv
The War Department.	xxxv
Signal Office.	xxxv
The Navy Department.	xxxv
Bureau of Construction and Repair.	xxxv
Bureau of Steam Engineering.	xxxv
Bureau of Equipment and Recruiting.	xxxv
The Interior Department.	xv
Patent Office.	xxxv
Senate and House folding-rooms.	xxxv
Health Office of the District of Columbia.	xxxv
B.—By the railroad companies of the United States.	xxxv
Special arrangement and prices for Fish Commission cars.	xxxv
Free trips granted to cars by certain roads.	xxxvi
C.—By foreign steamship companies.	xxxvi
D.—By foreign countries	xxxvi
Germany.	xxxvi
England.	xxxvi
Scotland.	xxxviii
7. COURTESIES EXTENDED BY THE U. S. FISH COMMISSION TO FOREIGN COUNTRIES.	xxxviii
Distribution of publications.	xxxviii
Response to calls for fish-culturists.	xxxviii
Shipment of fish or fish-eggs—	
To Australia.	xxxix
To Brazil.	xxxix
To Canada.	xxxix
To England.	xxxix
To France.	xl
To Germany.	xli

	Page.
7. COURTESIES EXTENDED BY THE U. S. FISH COMMISSION TO FOREIGN COUNTRIES--Continued.	
Shipment of fish or fish-eggs--Continued.	
To Mexico.....	xli
To the Netherlands.....	xlii
To Scotland.....	xliii
To Switzerland.....	xliv
8. SERVICES RENDERED TO OTHERS.....	xliii
To the steamer Monohanset.....	xliii
9. PARTICIPATION IN INTERNATIONAL EXHIBITIONS.....	xliiii
A.—London, 1883.....	xliiii
Prizes awarded.....	xliiii
B.—New Orleans, 1885.....	xliiii
Description of the exhibit.....	xliv
Exhibit of hatching operations on fish-ov.....	xliv
Exhibit of steamer Albatross.....	xlv
10. MEETING OF THE AMERICAN FISHERIES SOCIETY.....	xlv
Papers read and their authors.....	xlv
Excursion on the Fish Hawk.....	xlvii
Officers elected.....	xlvii
11. PUBLICATIONS OF THE FISH COMMISSION IN 1885.....	xlviii
Annual reports.....	xlviii
The annual bulletin.....	xlviii
Miscellaneous pamphlets.....	xlviii
Carp publications.....	xlix
Editing of publications in charge of C. W. Smiley.....	xlix
12. THE WOOD'S HOLL STATION.....	xlix
Its importance and facilities.....	xlix
Erection of buildings.....	l
Work in the laboratory.....	l
Collections brought in by the Albatross.....	l
Clams brought from Puget Sound.....	li
Propagation of codfish.....	li
Experiments with oysters.....	li
13. VISITS OF FOREIGN SPECIALISTS.....	li
Mr. J. K. Uchimura, from Japan.....	li
Mr. Walter Heape, from England.....	li
Mr. W. T. Silk, from England.....	li
Dr. Filip Trybom, from Sweden.....	li
14. ICELAND HALIBUT FISHERY.....	li
Cruises of six Gloucester vessels.....	lii
15. SMOKED KINGFISH.....	lii
Abundance and cost of kingfish.....	lii
Experiments in curing.....	liii
Their edible qualities.....	liii
16. CHEMICAL COMPOSITION AND NUTRITIVE VALUE OF FISH.....	liii
Investigation conducted by Professor Atwater.....	liii
Monograph of results in preparation.....	liv
Statement of some conclusions already reached.....	liv
17. TURBOT AND SOLES.....	lv
Previous attempts to acclimate them.....	lv
Preparations for propagating them at Wood's Holl.....	lv
Failure of certain attempts at shipment.....	lv
Nine soles received alive by Mr. Blackford.....	lvi
18. SPONGES FOR AUSTRALIA.....	lvi
Living sponges asked for, but could not be sent.....	lvi
B.—INQUIRY INTO THE HISTORY AND STATISTICS OF FOOD-FISHES.	
19. PROGRESS IN PRINTING THE QUARTO FISHERIES REPORTS.....	lvii
Publication of Section I in two volumes.....	lvii
Tables of contents of Sections II to V.....	lvii
20. INVESTIGATIONS OF THE FISHERIES OF THE GREAT LAKES.....	lx
Danger of whitefish fisheries becoming exhausted.....	lx
Investigation of results in Lake Erie by Mr. Clark.....	lx
Investigation of Great Lakes, under direction of Mr. Earll.....	lxi
Plan of operations in investigation.....	lxi

	Page.
21. USE OF COD GILL-NETS.....	lxix
Success of their introduction.....	lxxi
Description of nets and their use.....	lxxii
Proposed experiment with these nets in the banks fisheries.....	lxxiii
22. MACKEREL FISHERIES OF 1885.....	lxxiii
Summary of year's fishing, furnished by Mr. Wilcox.....	lxxiii
Statistics of catch for 1885, furnished by Mr. Wilcox.....	lxxiv
23. INVESTIGATION OF THE RED-SNAPPER FISHERIES.....	lxxv
Two trips made by the steamer Albatross.....	lxxv
Fishing-grounds for the red snapper.....	lxxvi
Details of the fishery.....	lxxvi
24. THE BLACK COD OF THE PACIFIC.....	lxxvii
Comments upon this fishery.....	lxxvii
Methods of preparing for market.....	lxxviii
Edible qualities.....	lxxviii
25. FISHERIES OF THE PACIFIC COAST.....	lxxix
Exploring trip in Alaska.....	lxxix
Gathering statistics in Northern California.....	lxxx
Investigating the gray-whale fishery.....	lxxx
6. TREATY RELATIONS WITH GREAT BRITAIN.....	lxxx
Arrangement for collecting information concerning the fisheries.....	lxxxi

C.—THE INCREASE OF FOOD-FISHES.

27. BY PROTECTIVE MEASURES.....	lxxxi
Report of Colonel McDonald on the pollution of Potomac water.....	lxxxi
Other investigations.....	lxxxii
28. BY THE USE OF FISHWAYS.....	lxxxiii
Fishway over the Great Falls.....	lxxxiii
29. SOME OPINIONS OF THE IMPORTANCE OF ARTIFICIAL PROPAGATION.....	lxxxiv
Views of Sir Lyon Playfair.....	lxxxiv
Views of Mr. A. Booth.....	lxxxv
Views of Prof. J. Cossar Ewart.....	lxxxvi
Action of the Chilean Government.....	lxxxvi
30. BY THE DISTRIBUTION OF FISH AND EGGS.....	lxxxvi
Total distribution to public waters, 1872-'82.....	lxxxvi
31. SPECIES OF FISH CULTIVATED AND DISTRIBUTED IN 1885.....	lxxxvii
General list of species covered by the operations of the Commission.....	lxxxvii
a. The Codfish (<i>Gadus morrhua</i>).....	
The Wood's Holl Station.....	lxxxviii
b. The White Perch (<i>Roccus americanus</i>).....	
The Battery Station.....	lxxxviii
c. The Whitefish (<i>Coregonus clupeiformis</i>).....	
The Northville Station.....	lxxxviii
The Alpena Station.....	lxxxix
The Cold Spring Harbor Station.....	lxxx
d. The Moranke (<i>Coregonus albula</i>).....	
The Bucksport Station.....	lxxx
Description of the moranke.....	lxxx
e. The Grayling (<i>Thymallus tricolor</i>).....	
Remarks on the species.....	lxxx
The Wytheville Station.....	lxxxii
f. The Brook Trout (<i>Salvelinus fontinalis</i>).....	
The Northville Station.....	lxxxii
The Cold Spring Harbor Station.....	lxxxiii
g. The Lake Trout (<i>Salvelinus namaycush</i>).....	
The Bucksport Station.....	lxxxiii
The Northville Station.....	lxxxiv
h. The California, Rainbow, or Mountain Trout (<i>Salmo trideus</i>).....	
The McCloud River Station.....	lxxxiv
The Northville Station.....	lxxxv
The Cold Spring Harbor Station.....	lxxxv
The Wytheville Station.....	lxxxv
i. The Atlantic or Penobscot Salmon (<i>Salmo salar</i>).....	
The Bucksport Station.....	lxxxv
The Cold Spring Harbor Station.....	lxxxvi

31. SPECIES OF FISH CULTIVATED AND DISTRIBUTED IN 1885—Continued.

j. The Schoodic or Landlocked Salmon (<i>Salmo salar</i> subsp. <i>sebago</i>).	
The Grand Lake Stream Station	lxxxvi
The Northville Station	lxxxvii
The Cold Spring Harbor Station	lxxxviii
k. The Brown or European Trout (<i>Salmo fario</i>).	
The Wytheville Station	lxxxviii
The Cold Spring Harbor Station	lxxxviii
l. The Loch Leven Trout (<i>Salmo leuvenensis</i>).	
The Northville Station	lxxxviii
The Bucksport Station	lxxxviii
m. The Quinnet or California Salmon (<i>Oncorhynchus chouicha</i>).	
The McCloud River Station	lxxxviii
n. The Shad (<i>Olupea sapidissima</i>).	
The Fort Washington Station	lxxxix
The Central Station	lxxxix
The Battery Station	xci
Assistance rendered by the Fish Hawk	xci
Assistance rendered by the Lookout	xci
Experiments in planting shad in Colorado River and Willamette River	xci
The Gloucester City Station	xci
The Lambertville Station	xci
Experiments in raising shad in ponds	xci
o. The River Herring (<i>Olupeaestivalis</i>).	
The Battery Station	xci
The Central Station	xci
p. The Smelt (<i>Osmerus mordax</i>).	
q. The Tomcod (<i>Microgadus tomcodus</i>).	
r. The Carp (<i>Cyprinus carpio</i>).	
The Washington Station	xci
Table of distribution	xci
The Northville Station	xci
s. The Goldfish (<i>Carassius auratus</i>).	
The Washington Station	xci
t. The Golden Ide or Orf (<i>Leuciscus idus</i>).	
The Washington Station	xci
u. The Tench (<i>Tinca vulgaris</i>).	
The Washington Station	xci
v. The Catfish (<i>Amiurus nebulosus</i>).	
Sent to Europe	xci
w. The Little Round Clam (<i>Tapes staminea</i>).	
The Wood's Holl Station	xci
x. The Oyster (<i>Ostrea virginica</i>).	
The Saint Jerome Station	c
The Cold Spring Harbor Station	ci
Investigation in New York waters	ci
y. The American Lobster (<i>Homarus americanus</i>).	
Need of propagating it	cii
The Wood's Holl Station	ciii
Summary of distribution in 1885	civ

D.—ABSTRACT OF THE ARTICLES IN THE APPENDIX.

32. CLASSIFICATION OF ARTICLES	cv
A.—Reports of steamers and stations	cv
B.—The fisheries	cvi
C.—Oyster culture	cvi
D.—Scientific investigation	cvi
E.—Miscellaneous	cvil

E.—SUPPLEMENT TO THE REPORT PROPER.

33. LIST OF LIGHT-HOUSE KEEPERS FURNISHING OCEAN TEMPERATURES	cvil
34. LIST OF RAILROADS FURNISHING TRANSPORTATION AT REDUCED RATES	cix
35. SUMMARY OF FISH DISTRIBUTED TO PUBLIC WATERS FROM 1872 TO 1882, INCLUSIVE	cx
36. CIRCULAR TO PERSONS ENGAGED IN THE COD, HALIBUT, AND OTHER GROUND FISHERIES	cxii

II.—APPENDIX TO REPORT OF COMMISSIONER.

A.—REPORTS OF STEAMERS AND STATIONS.

	Page.
I. Tanner. REPORT ON THE WORK OF THE U. S. FISH COMMISSION STEAMER ALBATROSS FOR THE YEAR ENDING DECEMBER 31, 1885. By Lieut.-Commander Z. L. Tanner, U. S. Navy, commanding. Five plates. Special index	3
II. Piepmeyer. REPORT ON THE WORK OF THE U. S. FISH COMMISSION STEAMER FISH HAWK FOR THE YEAR ENDING DECEMBER 31, 1885. By Lieut. L. W. Piepmeyer, U. S. Navy, commanding	91
III. Smith. REPORT ON THE WORK OF THE U. S. FISH COMMISSION STEAMER LOOKOUT FOR THE YEAR ENDING DECEMBER 31, 1885. By Mate James A. Smith, U. S. Navy, commanding.	97
IV. McDonald. REPORT OF OPERATIONS AT THE TROUT-BREEDING STATION AT WYTHEVILLE, VA., FROM ITS OCCUPATION IN JANUARY, 1882, TO THE CLOSE OF 1884. By Marshall McDonald	103
V. Mather. REPORT OF OPERATIONS AT COLD SPRING HARBOR, N. Y., DURING THE SEASON OF 1885. By Fred Mather	109
VI. Mather. REPORT OF EGGS SHIPPED TO AND RECEIVED FROM FOREIGN COUNTRIES AT THE COLD SPRING HARBOR (N. Y.) STATION DURING THE SEASON OF 1885-'86, AND THE DISTRIBUTION IN THE SPRING OF 1886. By Fred Mather	117
VII. Clark. REPORT OF OPERATIONS AT THE NORTHVILLE AND THE ALPENA (MICH.) STATIONS DURING THE SEASON OF 1885-'86. By Frank N. Clark	121
VIII. Stone. REPORT OF OPERATIONS AT THE U. S. SALMON AND TROUT STATIONS ON THE MC CLOUD RIVER, CALIFORNIA, FOR THE YEAR 1885. By Livingston Stone	131
IX. Atkins. REPORT ON THE PROPAGATION OF PENOBSCOT SALMON IN 1885-'86. By Charles G. Atkins	141
X. Atkins. REPORT ON THE PROPAGATION OF SCHOODIC SALMON IN 1885-'86. By Charles G. Atkins	145
XI. Blackford. REPORT ON THE OYSTER INVESTIGATION IN NEW YORK WITH THE STEAMER LOOKOUT. By Eugene G. Blackford	157
XII. Ravenel. REPORT OF OPERATIONS AT SAINT JEROME OYSTER-BREEDING STATION DURING 1885. By W. de C. Ravenel	165
XIII. Kidder. REPORT ON THE THERMOMETERS OF THE U. S. COMMISSION OF FISH AND FISHERIES. By J. H. Kidder, M. D.	185

B.—THE FISHERIES.

XIV. Collins. REPORT ON THE DISCOVERY AND INVESTIGATION OF FISHING-GROUNDS MADE BY THE FISH COMMISSION STEAMER ALBATROSS DURING A CRUISE ALONG THE ATLANTIC COAST AND IN THE GULF OF MEXICO, WITH NOTES ON THE GULF FISHERIES. By Capt. J. W. Collins. Ten plates. Special index	217
XV. Strom. EXTRACTS FROM THE NORWEGIAN FISHERY STATISTICS FOR 1884. By Høyv Strom	313
XVI. Anonymous. THE MANUFACTURE OF KLUP-FISH. From the Norsk Fiskeritidende	325
XVII. Bouchon-Brandely. PEARLS AND MOTHER-OF-PEARL AT TAHITI AND THE TUA-MOTU ARCHIPELAGO. By G. Bouchon-Brandely	353

C.—OYSTER CULTURE.

XVIII. Ryder. AN EXPOSITION OF THE PRINCIPLES OF A RATIONAL SYSTEM OF OYSTER CULTURE, TOGETHER WITH AN ACCOUNT OF A NEW AND PRACTICAL METHOD OF OBTAINING OYSTER SPAT ON A SCALE OF COMMERCIAL IMPORTANCE. By John A. Ryder. Four plates. Special index	381
--	-----

D.—SCIENTIFIC INVESTIGATION.

XIX. Ryder. ON THE DEVELOPMENT OF THE CETACRA, TOGETHER WITH A CONSIDERATION OF THE PROBABLE HOMOLOGIES OF THE FLUKES OF CETACEANS AND SIRENIANS. By John A. Ryder. Three plates. Special index	427
XX. Ryder. ON THE DEVELOPMENT OF OSSEOUS FISHES, INCLUDING MARINE AND FRESH-WATER FORMS. By John A. Ryder. Thirty plates	489

	Page.
XXI. Smith. REPORT ON THE DECAPOD CRUSTACEA OF THE ALBATROSS DREDGINGS OFF THE EAST COAST OF THE UNITED STATES DURING THE SUMMER AND AUTUMN OF 1884. By Sidney I. Smith. Twenty plates. Special index	605
XXII. Webster and Benedict. THE ANNELIDA CILIETOPODA, FROM EASTPORT, ME. By Prof. H. E. Webster and James E. Benedict. Eight plates. Special index	707
XXIII. Murray and Renard. ON THE NOMENCLATURE, ORIGIN, AND DISTRIBUTION OF DEEP-SEA DEPOSITS. By John Murray and A. Renard.....	759

E.—MISCELLANEOUS.

XXIV. Jordan. A CATALOGUE OF THE FISHES KNOWN TO INHABIT THE WATERS OF NORTH AMERICA NORTH OF THE TROPIC OF CANCER, WITH NOTES ON THE SPECIES DISCOVERED IN 1883 AND 1884. By David Starr Jordan. Special index.....	789
XXV. Dyrenforth. PATENTS ISSUED BY THE UNITED STATES DURING THE YEARS 1882, 1883, AND 1884, RELATING TO THE METHODS, PRODUCTS, AND APPLICATIONS OF THE FISHERIES. By Robert G. Dyrenforth. One hundred and fifty plates.....	975
GENERAL INDEX	1101

LIST OF ILLUSTRATIONS.

THE ALBATROSS.

	Page.
FIG. 1.—Feed-pump valves, with guides.....	46
2.—Counterbalance for low-pressure crank	47
3.—Boiler stays.....	50
4.—Boiler sockets.....	50
5.—Boiler braces.....	53
6.—Dynamo.....	54
7.—Cut-out blocks.....	54
8.—Pressure-regulating valve.....	56
9.—Steam heater.....	86
PLATE I.—Steering-card, Key West.....	86
II.—Steering-card, Narragansett Bay.....	86
III.—Steering-card, Chesapeake Bay.....	86
IV.—Baird's annunciator, showing index.....	86
V.—Baird's annunciator, showing blower.....	86

THERMOMETERS OF THE FISH COMMISSION.†

FIG. 1.—Small comparing-jar.....	186
2.—Comparing-jar for deep-sea thermometers	187
3.—Deck thermometer.....	190
4.—Professor Baird's protected thermometer.....	191
5.—Miller-Casella deep-sea thermometer.....	192
6.—Sixo's self-registering thermometer.....	198
7.—Negretti-Zambra self-registering minimum deep-sea thermometer.....	198
8.—Negretti-Zambra self-registering deep-sea thermometer, modern form.....	199
9.—Negretti-Zambra self-registering deep-sea thermometer, earliest form.....	200
10.—Negretti-Zambra self-registering deep-sea thermometer, early form.....	201
11.—Negretti-Zambra self-registering thermometer, intermediate form.....	204
12.—Negretti-Zambra thermometers in wooden cases, as first used by Fish Commission.....	205
13.—Sounding-machine, descending.....	206
14.—Sounding-machine, ascending.....	207
15.—Baile-Tanner deep-sea thermometer case.....	208
16.—Magnaghi deep-sea thermometer.....	210
17.—Talisman thermometer frame and sounding-lead.....	210
18.—Scottish thermometer frame.....	211
19.—Tanner thermometer case, new form.....	212
20.—Reading lens for Tanner thermometer case.....	212

FISHERIES OF THE GULF OF MEXICO.‡

PLATE I.—Cuban fishing-boat.....	306
II.—Florida sponge schooner.....	306
III.—Sponge dinghy.....	306
IV.—Sponge yard at Key West.....	306
V.—Key West fishing-smack.....	306

* In Tanner's Report on Work of the Albatross.

† In Kidder's Report on Thermometers of the Fish Commission.

‡ In Collins's Investigation of Fisheries in the Gulf of Mexico.

DEVELOPMENT OF CETACEANS.†

FIG. 1.—Female fetus of some dolphinoid form, side view	430
2.—Tail of the same, seen from above	430
3.—Fetal walrus, side view	431
PLATE I	486
FIG. 1.—Female fetus of <i>Rhachianectes glaucus</i> , side view.	
2.—Head of the same, front view.	
3.—Sketch of perineal region of the same.	
4.—Tail of the same, seen from below.	
5.—Male fetus of <i>Phocaena communis</i> , side view.	
6.—View of perineal region of the same, from below.	
7.—View of tail of the same, from above.	
8.—Fetus of <i>Phocaena</i> , small side view.	
9.—Female fetus of <i>Globiocephalus</i> , side view.	
10.—View of tail of the same.	
PLATE II	486
FIG. 11.—Fetus of the narwhal, side view.	
12.—Male fetus of the white whale, side view.	
13.—View of the same, obliquely from below.	
13a.—Tail of same.	
14.—Fetal kitten, side view.	
15.—Diagram showing six stages of the outgrowth of the flukes of cetaceans.	
16.—View of top of head of fetal <i>Megaptera longimana</i> .	
17.—View of right flipper of fetal <i>Globiocephalus</i> .	
PLATE III	486
FIG. 18.—Head of male fetus of <i>Balenoptera rostrata</i> .	
19.—Same fetus, large side view.	
20.—Contour lines of tail of manatee.	
21.—Female fetus of manatee, side view.	
22.—Male fetus of <i>Halicore du gong</i> , side view.	

DEVELOPMENT OF OSSEOUS FISHES.‡

FIG. .—Apparatus for hatching cod eggs	500
7.—View of larval striped bass	503
45.—Embryo of wall-eyed pike	520
PLATE I	546
FIG. 1.—Young cod, side view.	
2.—The same, oblique front view.	
3.—Position of cod egg in water.	
4.—Showing inferior position of blastodisk.	
5.—Showing rotation of egg as embryo lengthens.	
6.—Showing quarter rotation of egg.

PLATE II.....	548
FIG. 8.—Embryo <i>Clupea vernalis</i> , second day after hatching.	
9.—Embryo <i>Idus melanotus</i> , just hatched.	
10.—Embryo <i>Carassius auratus</i> , five and a half days after hatching.	
11.—Head of larval hybrid.	
PLATE III.....	550
FIG. 12.—Head of young <i>Siphostoma fascium</i> .	
13.—Developing egg of <i>Elacate canada</i> .	
14.—Earlier phase of same development.	
15.—Unimpregnated ovum of the file-fish.	
16-18.—Developing ovum of the goldfish.	
PLATE IV.....	552
FIGS. 19-21.—Embryos of <i>Siphostoma fascium</i> .	
PLATE V.....	554
FIGS. 22-26.—Embryos of <i>Apeltes quadraus</i> .	
PLATE VI.....	556
FIG. 27.—Young <i>Apeltes</i> , one week old.	
28-29.—Embryos of <i>Esox reticulatus</i> .	
PLATE VII.....	558
FIGS. 30-33.—Four stages of developing eggs.	
34.—Embryo from above eggs, three days after hatching.	
PLATE VIII.....	560
FIG. 35.—Magnified view of egg of yellow perch.	
36-39.—Views of developing ova of white perch.	
PLATE IX.....	562
FIGS. 40-44.—Embryos of white perch.	
PLATE X.....	564
FIGS. 45-56.—Sections through embryos of Spanish mackerel.	
PLATE XI.....	566
FIGS. 57-62.—Stages of growth in eggs of moonfish.	
63.—Embryo of moonfish, sixteen hours after hatching.	
PLATE XII.....	568
FIGS. 64-65.—Embryos of moonfish, soon after hatching.	
PLATE XIII.....	570
FIG. 66.—Young moonfish, sixty-three hours after hatching.	
67.—Young tomcod, just after hatching.	
PLATE XIV.....	572
FIGS. 68-92.—Views of sections of developing shad eggs.	
PLATE XV.....	574
FIGS. 93-100.—Sections through developing shad eggs.	
PLATE XVI.....	576
FIGS. 101-113.—Views of embryos of shad.	
PLATE XVII.....	578
FIGS. 114-121.—Sections through embryos of shad.	
PLATE XVIII.....	580
FIGS. 122-130.—Views of embryos of shad.	
PLATE XIX.....	582
FIGS. 131-141.—Views of embryo and developing shad.	
PLATE XX.....	584
FIGS. 142-144.—Sections of young shad.	
PLATE XXI.....	586
FIGS. 145-147.—Sections through head of young shad.	
PLATE XXII.....	588
FIGS. 148-153.—Views of young shad.	
PLATE XXIII.....	590
FIGS. 154-159.—Embryos of white catfish.	
PLATE XXIV.....	592
FIGS. 160-162.—Embryos of white catfish.	
PLATE XXV.....	594
FIGS. 163-164.—Side views of young catfish.	
PLATE XXVI.....	596
FIGS. 165-166.—Side views of young catfish, more advanced.	
PLATE XXVII.....	598
FIGS. 167-168.—Side views of young catfish.	

	Page.
PLATE XXVIII.....	600
FIGS. 169-170.—Side views of young catfish.	
PLATE XXIX.....	602
FIGS. 171-172.—Views of young catfish, eighty-eight days old.	
PLATE XXX.....	604
FIGS. 173-174.—Sections through head of young catfish.	

DECAPOD CRUSTACEA FROM ALBATROSS DREDGINGS.*

PLATE	I.— <i>Lispognathus thomsoni</i> , <i>Anamathia agassizii</i> , and <i>Anamathia tanneri</i>	702
	II.— <i>Homola barbata</i> and <i>Lambrus verrillii</i>	702
	III.— <i>Lithodes agassizii</i> , dorsal views.....	702
	IV.— <i>Munidopsis crassa</i> , dorsal view.....	702
	V.— <i>Munidopsis similis</i> and <i>Munidopsis bairdii</i>	702
	VI.— <i>Munidopsis rostrata</i> and <i>Munidopsis similis</i>	702
	VII.— <i>Pentacheles nanus</i> and <i>P. debilis</i>	702
	VIII.— <i>Glyphocrangon longirostris</i> and <i>Glyphocrangon sculptus</i>	702
	IX.— <i>Glyphocrangon sculptus</i> and <i>Glyphocrangon longirostris</i>	702
	X.— <i>Sabinea princeps</i> and <i>Sabinea sarsii</i>	702
	XI.— <i>Pontophilus gracilis</i> , <i>Pontophilus abyssi</i> , and <i>Pontophilus norvegicus</i>	702
	XII.— <i>Bythocaris payeri</i> , <i>B. nana</i> , <i>B. gracilis</i> , <i>Notostomus robustus</i> , and <i>Hymenodora gracilis</i>	702
	XIII.— <i>Pandalus propinquus</i> , <i>P. montagni</i> , and <i>Acanthephyra microphthalmus</i>	702
	XIV.— <i>Acanthephyra eximea</i> , <i>A. brevisrostris</i> , and <i>Ephyrina benedicti</i>	702
	XV.— <i>Acanthephyra agassizii</i> , <i>A. brevisrostris</i> , <i>Hymenodora glacialis</i> , and <i>Meningodora mollis</i>	702
	XVI.— <i>Acanthephyra brevisrostris</i> , <i>A. agassizii</i> , <i>Meningodora mollis</i> , <i>Ephyrina benedicti</i> , <i>Hymenodora glacialis</i> , <i>Hymenopenseus debilis</i> , and <i>H. microps</i>	702
	XVII.— <i>Nematocarcinus cursor</i> and <i>N. ensiferus</i>	702
	XVIII.— <i>Benthonectes filipes</i> and <i>Benthonectes bartletti</i>	702
	XIX.— <i>Benthonectes filipes</i> , <i>Aristeus tridens</i> , and <i>Hepomadus tener</i>	702
	XX.— <i>Sergestes arcticus</i> , <i>S. mollis</i> , and <i>S. robustus</i>	702

ANNELIDA CHÆTOPODA.†

PLATE	I.— <i>Eulalia bilineata</i> , <i>Eteone trilineata</i> , <i>Mystides viridis</i> , <i>Podarke aberrans</i> , and <i>Gyptis vittata</i>	756
	II.— <i>Eulalia bilineata</i> , <i>Eteone trilineata</i> , <i>Mystides viridis</i> , <i>Podarke aberrans</i> , <i>Gyptis vittata</i> , <i>Streptosyllis varians</i> , <i>Pædophylax brevicornis</i> , and <i>Autolytus solitarius</i>	756
	III.— <i>Streptosyllis varians</i> , <i>Sphærosyllis longicauda</i> , <i>Pædophylax brevicornis</i> , and <i>Pædophylax longicirris</i>	756
	IV.— <i>Autolytus solitarius</i> , <i>Lumbrinerels acicularum</i> , <i>Drilonerels magna</i> , and <i>Ephesia minuta</i>	756
	V.— <i>Zorus sarsii</i> , <i>Siphonostomum grubelii</i> , and <i>Brada granosa</i>	756
	VI.— <i>Ethocles typicus</i> , <i>Spionides cirratus</i> , and <i>Naidonereis quadricuspida</i>	756
	VII.— <i>Aricidea quadrilobata</i> , <i>Aricidea nolani</i> , <i>Tharyx acutus</i> , and <i>Tharyx similis</i>	756
	VIII.— <i>Cosura longocirrata</i> , <i>Ledon sexoculata</i> , <i>Ampharete cirrata</i> , and <i>Tapilus hebes</i>	756

PATENTS RELATING TO FISHERIES.‡

PLATE	I.—Fish-cutter.....	1100
	II.—Fish-cutter.....	1100
	III.—Fish-cutter.....	1100
	IV.—Fish-hook extractor.....	1100

* In Smith's Decapod Crustacea of Albatross Dredgings in 1884.

† In Webster and Benedict's Annelida Chætopoda from Eastport, Maine.

‡ In Dyrenforth's Patents Issued by the United States from 1882 to 1884 Relating to Fish and Fisheries.
