Subject: RE: Rockland fish pier dredging

Matt.

At this point it is somewhat out of my hands. We have staff down in our Concord, MA headquarters that deal with dredging. I have sent down Bud's dredging proposal and have not heard anything definitive back. Evidently they are discussing the proposed "capping" option with the U.S. EPA. Having said that I will back-check to see if I can shake anything loose.

As to your application I hope to draft a permit for this activity sometime this week.

Pete

Subject: [EXTERNAL] Rockland fish pier dredging

Good morning Pete,

I wanted to check in with you to see where we were at with the fish pier dredging proposition through Eco-Analyst inc?

Thanks,

Matt Ripley
