Hello Matt,

Attached is the budget and work time table for the project.

Could you fill in the prices for the various components . These are estimates at this point

Also could you place some of the major task into the timetable chart and affix an estimated date. Again this is a rough estimate for how the project will proceed. I am assuming that the dredging and pile work need to be scheduled in late summer fall??

Thanks

Bill

Hi Matt,

Go with the amount presented to MDOT – this is what I used in the preapplication to NBRC.

Thank you,

Audra

Audra,

Before we get really confused on this form, should I go with the numbers presented to MDOT or with the numbers that reflect the total requested \$2.5M which includes the engineering/oversight?
