Subject: Re: Rockland Harbor projects

Hi, Matt. Thanks for the Fish Pier document - it is helpful but it does not contain any of the dredge information we are seeking.

Do you have the 60-page report - and the ACOE response - referenced in the 3/22/16 Harbor Commission minutes? "Chemical analysis – 60 pages sent to the Army Corps of Engineers – they will review and decide where to dump the 10,000 cubic feet of material from dredging (which includes sand from the former snow dump side). "

Who prepared the analysis? And Is it 10k cubic feet or yards of spoils? (You said yards in our conversation last week.)

If Dave St. Laurent is the contact on this, how can we best reach him?

Thanks for your help,

Gini Noble
