Good afternoon,

I will forward you Mary Breton's email with attachments that include the Commissioner's decision not to hold a hearing or to pass the project up to the BEP.

Bob.

Hi Bob,

Sen. Curry responded with a follow-up email last night. He writes: "Was there a request for a public hearing within the 20 day window? If so, will there be one scheduled? Also is there a document you can share that spells out the criteria used in considering projects like this?"

He and his constituents are under the impression that we are accepting public comment until mid-March. As Dawn and I discussed (previously) I have told the press that we are accepting public comment until mid-February and looking to issue a decision in early March. If I need to correct that information in some way, please let me know asap.

Best,

Dave

Hi Bob,
When you have a minute, could you send me a copy of the application? Sen. Curry and his legislative aide have questions about the project and it might be helpful to them to have an understanding about what is being proposed.
Thanks,
Dave

Good afternoon,

I received an email from Mr. Pincince with this attachment earlier this afternoon. I have not had time today to look at this.

Bob.

Hi Bob,

Sen. Curry received the attached petition from John Pincince and others regarding the Lincolnville Pier project. I told him that I would forward it to you for the record and review.

Best,

Dave

David R. Madore

Deputy Commissioner

Maine Department of Environmental Protection
