Todd,

The consultant is Chip Haskell:

Thanks for that heads-up, Jessica. Do you have contact information for the person handling licensing and permitting issues for the project?

Thanks,
Todd

Todd,

I wanted to let you know that this application was re-submitted to the Department. I have until March 17th to determine if it is complete for processing.

Hi, Jessica. What's the status of this application? If it'd be convenient to touch base by phone, please let me know a good time.

Thanks,
Todd

Hi, Jessica. Is your office handling the DEP permit applications for the proposed quarry operation in Prospect, Maine? (See article in today's BDN). I believe the applicant would be Bowden Point Properties. I'd like to get a copy of

the notice of intent for those applications. Also, do you know if the project as proposed may require an individual permit from the USACE?

- Todd
