**RE: APPLICATION DEFICIENCY – Site Location of Development Act/
Natural Resources Protection Act Applications
DEP#L-29552-26-C-N/L-29552-TG-D-N**

Dear Mr. Haskell:

The Site Location of Development and Natural Resources Protection Act applications proposing to construct a pier and processing facility in Prospect, Maine, have been received and reviewed by the Department and are found to be unacceptable at this time. In order to process the applications, the Department needs the applicant to submit the Visual Impact Assessment for the proposed pier and building as requested in the letter dated January 19, 2022.

Please refer to Chapter 315, *Assessing and Mitigating Impacts to Scenic and Aesthetic Uses* § 7 for details on what is required in a Visual Impact Assessment.

Please let the Department know if you would like to meet to discuss the project prior to resubmitting. You may refile at any time with all deficiencies corrected, and substantive review of your application will begin at that time.

Please feel free to call me at 446-1216 if you have any questions regarding your project.

Sincerely,

Jessica M. Damon
