Hello –

I have forwarded a copy of my response to ensure you are aware of the information I provided regarding the Bowden Point application request.

Best,  
Dave

**Subject:** Maine DEP - Request for Information

Hello Kendra,

Thank you for contacting the Department. In its current form, the application information you requested for a project proposed by Bowden Point LLC., was too large to send by email. DEP staff spent considerable time condensing the files for electronic transmission. My attempt last week to email the information to you was unsuccessful due to the size of the attachment. I noticed that those with Gmail accounts are the most affected.

It is anticipated that a hard copy of the application will be available with the town and DEP by the end of the week, by appointment only. To view the document at DEP's Bangor office, please e-mail Jessica Lavoie at [jessica.lavoie@maine.gov](mailto:jessica.lavoie@maine.gov) to arrange a time. There are limited hours of operation at the town, so I would recommend contacting them ahead of time if you plan to view the application there.

The applications are still under review and have not yet been accepted as complete. If they are deemed complete for processing, the application and other documents for this project will be posted under "Major Projects before DEP" on the DEP's website at <https://www.maine.gov/dep/projects.html>.

Best regards,  
David R. Madore  
Deputy Commissioner  
Maine Department of Environmental Protection
