Hi Jessica,

I am writing to you as you probably already guessed about Salmon's applications. As I have only seen the applications for about 10 minutes at town hall, I can't really comment on them all that much.

But I do want to say that I believe Salmon's Inc does not run their operations with a high level of ethical standards, as evidenced by the fines they have incurred, purchasing the property around Prospect in an indirect fashion, and not quite abiding by the rules for submission of applications.

For instance, the town was not notified of the public hearing within ten days, nor did the town receive a copy of the application about a week and a half after DEP received it. I think these may be violations of the rules for submission of applications to DEP. If they are, then I strongly urge you to reject this submission of the application.

In any event, I am keenly interested in the acceptance or rejection of this application, can you please let me know when a decision has been made.

Thanks so much for your time, and for the work you do to help protect Maine and its resources.

Peter
