Subject: RE: Dragon De cement closure - DEP points of contact?

Hi - Cherrie Plummer contacted me about the closure and it was assigned to Pam Green for the RCRA closure. I'm not sure what, if any contact Pam has had at this point.

Subject: FW: Dragon De cement closure - DEP points of contact?

Are any of you involved with anything on the closure end with Dragon? Have any of you heard anything from Mr. Huber about this site? He has not reached out to me which is not surprising, but I wasn't sure if we had any involvement at this facility.

Thanks!

Re Dragon Cement Closure

Dear Mr Madore, Who are the DEP points of contact regarding the announced closure of the Dragon Cement facility in Thomaston?

Penobscot Bay Watch and its members participated in a number of administrative and court conflicts with the company down the years, both re water quality impacts of leachates and spills, and air quality impacts of CKD dust. We have experience and

information that will be of value as the site is closed

Mr. Madore I have not be getting meaningful responses to Waste Bureau voicemails and that is not acceptable.

Can you let me know who DEP's various participants are in Dragon cement's closure/ongoing activities? Calls to general bureau telephone numbers get us nowhere, and time is passing.

Sincerely
Ron Huber
